A young female designer is on the verge of an affair with a married male executive of the company she works for. The woman is the editor-in-chief, solid, rich, beautiful, self-confident. Therefore, I was alerted that he goes to the same institution with me. When I

left, it seemed to me that she (his wife) also recognized me, because when I began to leave, she also asked me to leave a bill. The "groom" pretended not to notice all this, but this did not please me very much. But there was another meeting with him when he came to my house and asked me to bring "something to eat." I would not have done this if I had not had an affair with him before. And I know for sure that if a man invites me, like my girlfriend, to a cafe, then I will go. But if he's not going
