The first version of AutoCAD-1 supported the first versions of Windows, using the GDI interface as the standard graphic system on the Windows operating system. In 1990, the original user interface for AutoCAD-1 was updated and became known as the Graphics Environment Manager (GEM). AutoCAD-2 (1992) Autodesk released AutoCAD-2 in 1992. It was designed for Microsoft Windows 3.0. It was built on the Microsoft Windows 3.0 platform and introduced object-based scripting.
