I downloaded the activation file and installed it, after that, it asks for an activation number but when I enter it it said that the serial number was incorrect and that I have to contact the distributor, this is not correct, I need to fix this as soon as possible before downloading the crack, I have a machine running Windows 8.1, it's an HP home. A: The serial number is either wrong, or it was previously used by another user. You can check this by either opening up the file, and looking at the header, or contacting your distributor. A: It's probably your license that is no longer valid. If you've installed your software by purchase, this is a common problem as the activation process gives you a serial number which is valid for some time. More startups in the region, more jobs and excitement. Here is a weekly round-up of top job openings, latest news and an opportunity for you to share your thoughts. TOP JOB OPENINGS This week's job openings: Online job publisher Monster posted 30 job openings in Indiana, according to a press release. However, the company, which posted 74 openings in the second quarter, has no plans to significantly increase its listings in the Hoosier State. Monster's United States president, Michael Cornacchia, wrote in the announcement that the cuts were "attributable to lower sales in the second quarter resulting in a decline in profitability." Job-sharing website JobVite is also looking for employees in Indiana. The company, which helps job hunters to search and share job ads, posted eight positions in the state. The job fair search platform Elance posted 10 job openings in Indiana, according to a press release. The company's "search for talent" section has no closing date. The American Hospital Association is searching for organizational partners who want to move forward with the agenda for improving hospital quality, safety and value. Indiana's hospitals are among the top regions in the country for patient safety, according to the association. Job-matching website LinkedIn added a new feature to its dashboard, called "Top Companies to Work For," which ranks more than 4 million companies by size and salary based on its data. The "Top Companies to Work For" category was launched in May. According to LinkedIn, nearly two-thirds of the job postings

I have two plugins- "Android native" and "Android native with Native Controller". The "Android native" plugin has the following imported projects: MyApp MyApp.R.java MyApp.java MyApp.grc When I try to add an Action in a "Android native with Native Controller" activity I get the error: An error occurred while executing org.eclipse.core.resources.ResourcesPlugin.getWorkspace().setPriority(IWorkspace.PRIORITY\_BASIC) The message is in Chinese. How do I solve this problem? A: I think its because the BuildConfig file is not present in the two projects you have imported, because there was no build for them. Go to the main project directory in eclipse where you created the BuildConfig.java file and delete it and compile your project again. Detroit Lions safety Glover Quin will be suspended two games for a violation of the league's policy on performance-enhancing substances, the league announced Friday. "This is not something I take lightly," Quin said in a statement

released by the team. "I've always understood the importance of being a professional on and off the field and I will continue to do that. I'm disappointed I've made this decision, but I accept it and am going to move on from it and try and have the best two games next season." Quin originally received a four-game suspension for the same offense in 2017 but the suspension was later reduced to two games. The NFL's news release said the league and NFLPA had notified Quin of the suspension. Quin missed the final five games of the 2017 season as well as the entire 2018 season after being suspended for four games for violating the league's policy on performance-enhancing substances. The 2013 first-round pick has had a series of run-ins with the league
